CMMC: Organizational Foundations v2.2

Category: Networking & Security | **Vendor:** Logical Operations

Duration: 40.00 hours (5 days) **32.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

The Cybersecurity Maturity Model Certification (CMMC), managed by The Cyber AB (formerly known as the CMMC Accreditation Body or the CMMC-AB), is a program through which an organization's cybersecurity program maturity is measured by their initial and ongoing compliance with applicable cybersecurity practices, as well as their integration of corresponding policies and plans into their overall business operations. Once rule-making has concluded and CMMC 2.0 has been implemented, all organizations providing products or services to the United States Department of Defense (DoD) must comply with the requirements of their applicable CMMC Level. This course provides a complete review of the key elements of this important program.

About This Course

The Cybersecurity Maturity Model Certification (CMMC), managed by The Cyber AB (formerly known as the CMMC Accreditation Body or the CMMC-AB), is a program through which an organization's cybersecurity program maturity is measured by their initial and ongoing compliance with applicable cybersecurity practices, as well as their integration of corresponding policies and plans into their overall business operations. Once rule-making has concluded and CMMC 2.0 has been implemented, all organizations providing products or services to the United States Department of Defense (DoD) must comply with the requirements of their applicable CMMC Level. This course provides a complete review of the key elements of this important program.

Who Should Attend

This course provides an immersive learning experience for business and technical professionals who need a thorough understanding of the CMMC program. It does this by taking the point of view of a CMMC Certified Professional. Students might consider taking this course to learn more about the overall CMMC program, how DoD contractors are assessed, and how to help their organizations prepare for a CMMC Assessment.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

In this course, you will learn about the CMMC Model, framework, context, and application within the DoD, as well as the expectations and requirements imposed upon organizations that do business with the DoD. You will:

Identify the threats to the Defense Supply Chain and the established regulations and standards for managing the risk.

Identify the sensitive information that needs to be protected within the Defense Supply Chain and how to manage it.

Describe how the CMMC Model ensures compliance with federal acquisitions regulations.

Identify responsibilities of the Certified CMMC Professional, including appropriate ethical behavior.

Establish the Certification and Assessment scope boundaries for evaluating the systems that protect regulated information.

Prepare the OSC for an Assessment by evaluating readiness.

Use the CMMC Assessment Guides to determine and assess the Evidence for practices.

Implement and evaluate practices required to meet CMMC Level 1.

Identify the practices required to meet CMMC Level 2.

Work through the CMMC Assessment process.
