Course Overview

Become a certified SAFe® Practice Consultant and an expert in achieving business agility through SAFe

Ready to lead a Lean-Agile transformation? Need a deeper understanding of the Scaled Agile Framework? Looking to teach SAFe courses yourself?

Implementing SAFe® offers attendees the broadest level of insight into each layer of a SAFe implementation. This course and resulting certification will help you understand the roles of each person in a SAFe organization and then plan and guide a SAFe transformation. It’s also the first step toward becoming a certified SAFe Practice Consultant.

You’ll learn how to identify value streams, launch agile release trains, optimize flow, and apply OKRs to Strategic Themes that define the targeted outcomes for the SAFe transformation. You’ll also practice the principles of Agile product management and product delivery. If you’re looking for a comprehensive and practical understanding of how to help an organization achieve business agility effectively, Implementing SAFe® is the right course for you.
