Master Class: Microsoft Defender and Microsoft Sentinel for Hybrid Cloud

Category: Cloud Platforms | **Vendor:** Microsoft

Duration: 40.00 hours (5 days) **32.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Today, IT environments (VMs, apps and data platforms) are not only hosted on premises nor only in the cloud. Working with both world is the reality for a variety of reasons. This affects a lot of processes, design decisions but also security monitoring.

Monitoring must be established, and the collected data has to be investigated and evaluated. In this Master Class we dive deep into Microsoft Cloud Security whether on-prem or cloud-based systems. We will focus on Microsoft Defender for Cloud, Defender for Identity and Microsoft Sentinel. These services are able to monitor and secure you hybrid environment.
