

AI+ Telecommunications

Category: AI, Data & Analytics | **Vendor:** AI Certs

Duration: 5.00 hours (1 days) **4.1 CPD Hours**

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format:	vILT
Certification:	AI+ Telecommunications
Related Exam:	AI-TEL

Course Overview

The AI+ Telecommunications™ course empowers telecom professionals to harness artificial intelligence for smarter, faster, and more efficient networks. Explore AI-driven automation, predictive maintenance, and 5G optimization to enhance connectivity and performance. The course covers network analytics, customer experience enhancement, and intelligent fault detection using AI tools. It bridges telecom expertise with modern AI innovation to prepare professionals for next-generation communication systems.

About This Course

The AI+ Telecommunications™ course empowers telecom professionals to harness artificial intelligence for smarter, faster, and more efficient networks. Explore AI-driven automation, predictive maintenance, and 5G optimization to enhance connectivity and performance. The course covers network analytics, customer experience enhancement, and intelligent fault detection using AI tools. It bridges telecom expertise with modern AI innovation to prepare professionals for next-generation communication systems.

Prerequisites & Entry Requirements

General Prerequisites:

Basic understanding of telecommunications concepts and technologies

Familiarity with programming, preferably Python

Basic knowledge of data analysis techniques

Prior experience with AI

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Understand the role of AI in transforming modern telecommunications and network infrastructures

Apply AI for network automation, optimization, and predictive maintenance

Leverage AI for improving customer experience, personalization, and service delivery

Use AI in managing 5G networks, traffic forecasting, and fault detection

Assess the ethical and security implications of deploying AI within telecom ecosystems

Detailed Course Outline

Introduction to AI in Telecommunications

AI Fundamentals in Telecommunications

AI Technologies for Telecom

Emerging Trends in AI for Telecommunications

Case Study

Hands-on

Data Engineering for Telecom AI

Foundation of Telecom Data Engineering

Designing and Managing the Telecom Data Pipeline

Data Engineering Tools and Technology

Case Study – SK Telecom’s Big Data Analytics with Metatron Discovery

Hands-on Exercise

AI for 5G Networks

Introduction to 5G

AI Applications in 5G

Enhancing Network Management with AI

Case Study

Hands-on

AI in Network Optimization

Predictive Network Management

Performance Enhancement Techniques

Traffic Management Strategies

Case Study

Hands-on

AI in Network Security

Security Threats in Telecom

AI Security Solutions

Advanced Security Frameworks

Case Study

Hands-on

Enhancing Customer Experience with AI

Personalized Customer Service

Service Quality Improvement

Enhancing Customer Engagement

Case Study

Hands-on

IoT Integration with Telecommunications

IoT Fundamentals

Managing IoT Security Challenges

Enhancing Operational Efficiency with IoT

Case Study

Hands-on

AI-Integrated Network Operations Centers (NOC)

Transitioning to AI-Driven NOCs

Automating Escalations and Root Cause Analyses

Closed-Loop Automation with AI and SDN Integration

Designing AI-Ready Network Architectures

Case Study

Hands-On

Ethical Considerations in Artificial Intelligence

Ethical Implications of Using Artificial Intelligence

Responsible Deployment Practices

Emerging Trends and Challenges

Case Study

Hands-on

 Certification Path

AI+ Telecommunications

Exam: AI-TEL

Frequently Asked Questions

Q: What delivery options are available for AI+ Telecommunications?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
 - Traditional Instructor-Led Classroom Training (ILT)
 - On-site delivery at your offices anywhere in United Kingdom
 - Private dedicated courses customized for your team
-

Q: What certification does this course prepare me for?

The AI+ Telecommunications course helps prepare you for the AI+ Telecommunications certification path.

Q: Which exam does this course prepare me for?

This course prepares you for the AI-TEL official exam. You can take this exam at any exam center across United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online wherever you are located.

Q: How many CPD hours does this course provide?

The 1-day AI+ Telecommunications course provides up to 4.1 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the AI+ Telecommunications training?

The training takes place over 1 day(s), with each day lasting approximately 5.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for AI+ Telecommunications?

Yes, we provide corporate training, dedicated training, and closed classes for AI+ Telecommunications. Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

Q: What related terms do people search for?

Popular related searches include: AI+ Telecommunications, AI Certs, vILT

Q: Why choose Nexus Human for AI+ Telecommunications?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

Q: Are there any discount codes available?

Yes! Use discount code **PENPALS** when booking your AI+ Telecommunications training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
