Course Overview

The course provides students a clear understanding and total immersion into all of the facets of the business analyst role, including a thorough walkthrough of the various domain/knowledge areas that comprise the business analysis profession. Students are provided an opportunity to try their hand at several business analysis techniques for eliciting, analyzing, and modeling requirements. The business analysis work performed in strategy analysis and solution evaluation, which is most often the least familiar to business analysts, is thoroughly presented and explored. Students completing this course will be well equipped with new skills and knowledge that can be immediately applied on current and future projects. This course is aligned to and satisfies the professional development hours required to take the Entry Certificate in Business Analysis (ECBA) certification.
