The purpose of the Practitioner certification is to confirm whether the candidate has achieved sufficient know-how to apply and tailor Change Management guidance in a given organizational change situation. A successful Practitioner candidate should, with suitable direction, be able to start applying the Change Management approaches and techniques to a real change initiative - but may not be sufficiently skilled to do this appropriately for all situations. Their individual Change Management expertise, complexity of the change initiative and the support provided for the use of Change Management approaches in their work environment will all be factors that impact what the Practitioner can achieve. Successful candidates will have fulfilled the knowledge requirements for Change Management Institute accreditation.
