

Cisco Managing Enterprise Networks with Cisco Prime Infrastructure (MENPI)

Duration: 40.00 hours (5 days)

32.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

In this Cisco Prime Infrastructure training course, you will learn how to design, deploy, operate, and optimize enterprise networks with the Cisco Prime Infrastructure solution (PI). Cisco Prime Infrastructure is part of a Unified Access solution that converges traditional wired and wireless networks into a single network management tool. The Managing Enterprise Networks labs put you in a realistic customer scenario and let you practice what you learned using Cisco Prime Infrastructure 3.7. This MENPI training course's network management perspective has a heavier lean to the wired side of the network management. We suggest students have a working understanding of networks and networking terminology with regards to CCNA Routing and Switching.

About This Course

In this Cisco Prime Infrastructure training course, you will learn how to design, deploy, operate, and optimize enterprise networks with the Cisco Prime Infrastructure solution (PI). Cisco Prime Infrastructure is part of a Unified Access solution that converges traditional wired and wireless networks into a single network management tool. The Managing Enterprise Networks labs put you in a realistic customer scenario and let you practice what you learned using Cisco Prime Infrastructure 3.7. This MENPI training course's network management perspective has a heavier lean to the wired side of the network management. We suggest students have a working understanding of networks and networking terminology with regards to CCNA Routing and Switching.

Who Should Attend

The primary audience for this course is as follows:

Network Engineers

Technicians

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Upon completing this course, the learner should be able to meet these overall objectives:

Fundamental network management concepts and introduce the features of Cisco Prime Infrastructure

Manage the inventory with Cisco Prime Infrastructure

Map the network using the tools in Cisco Prime Infrastructure

Manage user access to tasks, functions, and devices in Cisco Prime Infrastructure

Manage the devices and configuration archive in Cisco Prime Infrastructure

Work with Cisco AVC, QoS, and Cisco IWAN services using Cisco Prime Infrastructure tools and deploy

Cisco TrustSec identity services using Cisco Prime Infrastructure

Monitor and troubleshoot your network with Cisco Prime Infrastructure

Perform system administration tasks in Cisco Prime Infrastructure

Additional Course Details

Nexus Humans Cisco Managing Enterprise Networks with Cisco Prime Infrastructure (MENPI) training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the Cisco Managing Enterprise Networks with Cisco Prime Infrastructure (MENPI) course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.
