

Introduction to Red Hat OpenShift Service on AWS (CS120)

Category: Developer | **Vendor:** Red Hat

Duration: 16.00 hours (2 days)

13.0 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Language: English

Delivery Format: Instructor Led - Online

Course Overview

Learn how to deploy, access, and perform day-to-day operations to a ROSA cluster. This course teaches IT operations staff how to deploy a public Red Hat OpenShift Service on AWS (ROSA) cluster for experimentation and to provision projects for development teams to work within. IT operations staff will learn how to perform day-to-day operation of ROSA clusters and support application teams which use that cluster. IT operations staff can then apply the same skills and similar procedures to private ROSA clusters of their organizations.

About This Course

Learn how to deploy, access, and perform day-to-day operations to a ROSA cluster. This course teaches IT operations staff how to deploy a public Red Hat OpenShift Service on AWS (ROSA) cluster for experimentation and to provision projects for development teams to work within. IT operations staff will learn how to perform day-to-day operation of ROSA clusters and support application teams which use that cluster. IT operations staff can then apply the same skills and similar procedures to private ROSA clusters of their organizations.

Who Should Attend

- ROSA administrators
- System administrators, platform engineers, cloud engineers, other infrastructure-related IT roles who are responsible for providing and supporting infrastructure for applications deployed on AWS.
- Enterprise architects
- Application and development infrastructure professionals such as site reliability engineers and DevOps engineers.

Prerequisites & Entry Requirements

General Prerequisites:

All students must be knowledgeable about Amazon Web Services (AWS), including operating and managing AWS compute, storage, and network resources. For students who are new to Red Hat OpenShift, it is recommended that you learn the fundamental skills of managing Red Hat OpenShift clusters from the following courses: [Administration](#) link text [Red Hat OpenShift Administration II: Operating a Production Kubernetes Cluster \(DO280\)](#)

Additional Course Details

Nexus Humans, Introduction to Red Hat OpenShift Service on AWS (CS120) training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the ITS Data Analytics course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.
