

PostgreSQL for Developers

Duration: 16.00 hours (2 days)

13.0 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

PostgreSQL for Developers Course Overview

This course covers important basic and intermediate level details for developers interacting with PostgreSQL. Delegates will learn techniques, syntax and structures needed to develop quality applications using the PostgreSQL backend. This course also covers SQL Tuning best practices for writing efficient SQL.

The target audience includes developers and programmers who want to extend their knowledge of PostgreSQL to encompass advanced SQL techniques and the usage of Stored Program Units such as triggers, procedures and functions.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.
