Course Overview

React Course Overview

The React course comprises sessions dealing with setting up for and creating a React app, JSX and element rendering, components and props, state and lifecycle, hooks, event handling, lists and keys, forms, composition and inheritance, React Router, Flux, and Redux. React Native is not covered on this course.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

About This Course

React Course Overview

The React course comprises sessions dealing with setting up for and creating a React app, JSX and element rendering, components and props, state and lifecycle, hooks, event handling, lists and keys, forms, composition and inheritance, React Router, Flux, and Redux. React Native is not covered on this course.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

Prerequisites & Entry Requirements

General Prerequisites:

Requirements

Delegates should be able to:

- Build and style simple web pages using HTML & CSS
- Build JavaScript applications that exploit all fundamental elements of the language including variables and expressions, conditions and loops, functions, objects, arrays, the DOM, and event handling

This knowledge can be gained by attendance on the pre-requisite Modern, Responsive Websites with HTML & CSS and JavaScript Developer courses.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Course Objectives

This course aims to provide the delegate with the knowledge to be able to build a Single Page Application (SPA) composed of React components and incorporating React Router. The delegate will also be exposed to application state containers including Flux and Redux and local state management via Hooks.

Additional Course Details

Nexus Humans, React training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the ITS Data Analytics course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.
