

Red Hat Networking

Duration: 8.00 hours (1 days)

6.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Red Hat Networking Course Overview

This highly practical instructor led Red Hat Networking course introduces the delegate to the main concepts of Red Hat Linux (RHEL) networking and TCP/IP. It describes the structure of networks, topologies, TCP/IP Protocol suite, IP addressing, Application Layer protocols and packet capture techniques using Wireshark.

The delegate will learn Linux commands to view and configure network cards on a Red Hat Linux (RHEL) system, IPv4 and IPv6 addresses as well as subnetting and analysis of network packets for key applications using Wireshark.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

About This Course

Red Hat Networking Course Overview

This highly practical instructor led Red Hat Networking course introduces the delegate to the main concepts of Red Hat Linux (RHEL) networking and TCP/IP. It describes the structure of networks, topologies, TCP/IP Protocol suite, IP addressing, Application Layer protocols and packet capture techniques using Wireshark.

The delegate will learn Linux commands to view and configure network cards on a Red Hat Linux (RHEL) system, IPv4 and IPv6 addresses as well as subnetting and analysis of network packets for key applications using Wireshark.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

Prerequisites & Entry Requirements

General Prerequisites:

Requirements

There are no formal pre-requisites, although knowledge and understanding of an operating system is essential. Having LINUX/UNIX knowledge is particularly advantageous, as the course is built around TCP/IP and LINUX/UNIX.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Course Objectives

To provide the skills necessary for the delegate to design, build, test and subnet TCP/IP Networks. The delegate will also learn how to capture packets and trace and rectify faults on the network.

Additional Course Details

Nexus Humans, Red Hat Networking training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the ITS Data Analytics course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.
