

SharePoint - Site Basics (Modern Experience)

Category: Office Applications | **Vendor:** Microsoft

Duration: 8.00 hours (1 days)

6.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

In many professional environments, people work collaboratively in teams. Information technology and applications facilitate this by enabling people to easily share, access, edit, and save information. Microsoft® SharePoint® is a platform specifically designed to facilitate communication and collaboration, enabling people to use familiar applications and web-based tools to create, access, store, and track documents and data in a central location. In this course, you will use SharePoint to access, store, share, and collaborate with information and documents.

About This Course

In many professional environments, people work collaboratively in teams. Information technology and applications facilitate this by enabling people to easily share, access, edit, and save information. Microsoft® SharePoint® is a platform specifically designed to facilitate communication and collaboration, enabling people to use familiar applications and web-based tools to create, access, store, and track documents and data in a central location. In this course, you will use SharePoint to access, store, share, and collaborate with information and documents.

Who Should Attend

This course is designed for Microsoft® Windows® and Microsoft Office users who are transitioning to a SharePoint environment, and who need to access information from and collaborate with team members within Microsoft SharePoint.
