

VMware Horizon 8: Infrastructure Administration and Troubleshooting

Duration: 40.00 hours (5 days)

32.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

VMware Horizon 8: Infrastructure Administrator and Troubleshooting is a five-day combination course of VMware Horizon 8: Infrastructure Administration & VMware Horizon 8: Infrastructure Troubleshooting. This training collection gives you the skills to install and configure a virtual desktop infrastructure platform. This course builds your skills in installing and configuring VMware Horizon® through a combination of lecture and hands-on labs. You learn how to install and configure VMware Horizon® Connection Server , VMware Unified Access Gateway , how to configure a load balancer for use with Horizon, and how to establish Cloud Pod Architecture. Also, this course provides you with the advanced knowledge, skills, and abilities to troubleshoot VMware Horizon 8 infrastructure. This workshop teaches the required skill and competence for troubleshooting Horizon Connection Server, Unified Access Gateway, protocols, connections, and certificates. This course provides a challenge lab designed to present participants with infrastructure issues that may arise in actual Horizon environments. The lab objective is to put into practice the contents covered during the training to create a working environment.

About This Course

This training collection gives you the skills to install and configure a virtual desktop infrastructure platform. This course builds your skills in installing and configuring VMware Horizon® through a combination of lecture and hands-on labs. You learn how to install and configure VMware Horizon® Connection Server , VMware Unified Access Gateway , how to configure a load balancer for use with Horizon, and how to establish Cloud Pod Architecture. Also, this course provides you with the advanced knowledge, skills, and abilities to troubleshoot VMware Horizon 8 infrastructure. This workshop teaches the required skill and competence for troubleshooting Horizon Connection Server, Unified Access Gateway, protocols, connections, and certificates. This course provides a challenge lab designed to present participants with infrastructure issues that may arise in actual Horizon environments. The lab objective is to put into practice the contents covered during the training to create a working environment.

Who Should Attend

Tier 1 system administrators, and integrators responsible for managing and maintaining VMware Horizon Infrastructure.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

By the end of the course, you should be able to meet the following objectives:

Describe the installation, architecture, and requirements of Horizon Connection Server

Describe the authentication and certificate options for a VMware Horizon environment

Recognize the integration process and benefits of Workspace ONE Access and VMware Horizon

Compare the remote display protocols that are available in VMware Horizon

Describe the 3D rendering options available in VMware Horizon

Discuss the scalability options available in VMware Horizon

Describe the different security options for VMware Horizon environments

Discuss the advanced configurations of Horizon Connection Server

List the troubleshooting techniques for common Horizon Connection Server issues

Interpret the Horizon Connection Server logs

Identify Unified Access Gateway configuration and certificate issues

List the troubleshooting steps for common Unified Access Gateway common issues

Describe Blast configuration verification using logs and settings

Describe the Blast optimization recommendations for different use cases

Describe VMware Horizon connections and how to troubleshoot related problems

Describe VMware Horizon certificates

List the troubleshooting steps for common VMware Horizon certificates issues

Describe Cloud Pod Architecture troubleshooting scenarios

Identify and fix problems in a VMware Horizon environment

Additional Course Details

Nexus Humans VMware Horizon 8: Infrastructure Administration and Troubleshooting training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the VMware Horizon 8: Infrastructure Administration and Troubleshooting course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.

Frequently Asked Questions

Q: What delivery options are available for VMware Horizon 8: Infrastructure Administration and Troubleshooting?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
 - Traditional Instructor-Led Classroom Training (ILT)
 - On-site delivery at your offices anywhere in United Kingdom
 - Private dedicated courses customized for your team
-

Q: How many CPD hours does this course provide?

The 5-day VMware Horizon 8: Infrastructure Administration and Troubleshooting course provides up to 32.5 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the VMware Horizon 8: Infrastructure Administration and Troubleshooting training?

The training takes place over 5 day(s), with each day lasting approximately 40.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for VMware Horizon 8: Infrastructure Administration and Troubleshooting?

Yes, we provide corporate training, dedicated training, and closed classes for VMware Horizon 8: Infrastructure Administration and Troubleshooting. Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

Q: Why choose Nexus Human for VMware Horizon 8: Infrastructure Administration and Troubleshooting?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

Q: Are there any discount codes available?

Yes! Use discount code **PENPAL5** when booking your VMware Horizon 8: Infrastructure Administration and Troubleshooting training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
